

## Land Rover - Range Rover

### Range Rover

Range Rover Classic 3.5L V8 | 1978/1981 | H-license plate | Extensively restored

The vehicle was built ex-factory on May 11, 1978, as a left-hand drive model in Tuscan Blue and delivered via U.A.C. Motors, London—as documented by a current BMIHT Heritage Certificate (British Motor Industry Heritage Trust, June 2026).

Engine & Mechanics: 3.5-liter V8, 97 kW, 4-speed manual transmission with reduction gear, all-wheel drive, 2x Zenith-Stromberg carburetors, 123-USB digital ignition system.

#### Condition & History:

The previous owner acquired the vehicle in 2022, already in a cosmetically restored condition. Since the previous restoration had focused on appearance and interior trim, he had it technically overhauled from the ground up between 2022 and 2026 at specialized classic car workshops—without compromise and regardless of cost: Engine disassembled and rebuilt, brakes completely overhauled, electrical system refurbished, air conditioning repaired, leather treated, paint sealed. All work is documented by original invoices. Documented investment of over €39,000.

Classic Data Brief Assessment (08/2022): Overall condition 1–, replacement value €85,000.

Features: Electric folding roof, air conditioning, special interior (cognac-colored leather with diamond quilting), sport rims, right-side exterior mirror.

Documents: H-license plate, §21 individual operating permit, §23 classic car appraisal, BMIHT Heritage Certificate, comprehensive invoice history.
